

MATHEMATICAL IMMERSION FOR SECONDARY TEACHERS

Join us to do mathematics like
you've never done before!

What we're doing:

- Gathering 4-7 mathematics teachers (6th-12th grade) at a site
- Connecting to several other groups across the country
- Nine 2.5-hour after school sessions during the '18 -'19 or the '19 -'20 school year
- Corresponding asynchronous reflections on classroom practice
- Building a nationwide professional learning community
- Exploring mathematics in ways you've probably not experienced before (based on PCMI and other immersion models)

FUN!

What you need:

- A place to meet and a table to gather around
- Reliable internet and a computer for videoconferencing
- 3 – 6 of your mathematically-focused colleagues to join you

\$700 stipend available for participation in
mathematics and research activities.
